SHARE IN THE TRADITION

THE OFFICIAL 1989 GEORGE BUSH INAUGURAL MEDAL

YOU CAN OWN A PIECE OF HISTORY

It's a noble American tradition. Every four years, voters from all over the United States celebrate their cherished freedom by casting a ballot in the presidential election — selecting one man to occupy the highest office in the land. On January 20th, 1989, George Bush — the popular choice of the 1988 election — will take the Oath of Office in Washington, D.C. and be sworn in as the 41st President of our country.

Now, you can share in the heritage and tradition of this important event with the Official 1989 George Bush Inaugural Medals, struck in gold, silver, and bronze.

PERSONALLY APPROVED

These coveted medals are the only officially authorized medals to be created for the occasion. The design has been approved by George Bush and by the Inaugural Medal Committee chaired by Senator Mark Hatfield, and endorsed by the American BiCentennial Presidential Inaugural Committee.

Each of these inaugural medals will feature the official Inaugural portrait of George Bush, designed by the celebrated American sculptor Mico Kaufman. This is the fourth Inaugural medal produced by Mr. Kaufman, and is his best — a stunning and innovative work of art. The reverse is also an original design by Mr. Kaufman, featuring the 19½-foot high statue of "Freedom," which stands atop the United States Capitol Building.

Furthermore, these medals are superb examples of the minter's art. Each medal is being struck by the Medallic Art Company, a firm which has a history of producing Inaugural medals since 1925.

POPULAR AND HISTORIC

Modern Inaugural medals have become a highly collected series. Interest in them has skyrocketed in recent years, and past issues are eagerly pursued by collectors and dealers. Because of their historical importance and superb artistry, many of these medals occupy places of honor in the collections of our country's most discriminating numismatists.

SPECIAL OPPORTUNITY

The Official 1989 George Bush Inaugural Medals are a special opportunity for Americans to possess a "piece of history." It is a rare chance to own a limited edition collector's item that has been personally approved by the President, marks an event of great significance in the life of our nation, and is the classic work of a famous sculptor. These are medals that you will be proud to own — and proud to pass on to future generations.

DON'T BE DISAPPOINTED!

As you can imagine, production of these important Inaugural Medals is strictly limited, and only a small number of Americans will ever have the privilege of owning one. In 1985, for example, the complete Collector's Set sold out very quickly, and many were disappointed. Since all orders will be shipped based on the date of receipt of your order, we urge you to act quickly.

Please complete and return the enclosed order form today to insure that you can share in the tradition of these historic American Inaugural Medals.

200 YEARS OF TRADITION

The tradition of producing souvenirs to mark inaugurations began in 1789 with our first President, George Washington.

Washington ordered special engraved gilt buttons — featuring the Arms of the United States — which he used to adorn his brown inaugural coat. Word of this quickly spread, and by the time the Inauguration took place, others at the event had special buttons of various designs on their coats to commemorate the occasion. Thus, beginning with the first inauguration on April 30, 1789, Americans displayed their desire to own tokens of these historic events.

In 1901, the first official medal was struck for the Inauguration of William McKinley. Theodore Roosevelt chose Augustus Saint-Gaudens, the famed sculptor, to design his medal, and began the practice of selecting America's foremost artists to create these medals.

The 1989 Mico Kaufman-designed Inaugural Medal continues this proud practice. His stylish creation is the perfect medal to mark the 200th anniversary of an American tradition that allows you to hold art and history in your hand.

ABOUT THE SCULPTOR

Mico Kaufman, whose designs for the 1989 George Bush Inaugural Medal were approved by the American Bicentennial Presidential Inaugural Committee, was chosen Sculptor of the Year by the American Numismatic Society in 1978. He has designed several previous Inaugural Medals, including the 1973 Gerald Ford Vice Presidential medal, the 1974 Gerald Ford Presidential medal, and the 1985 Reagan-Bush Inaugural Medal. Kaufman studied Art at the Academy of Fine Arts in Rome and Florence, Italy, and his works have frequently been displayed in New England, where he makes his home. The stunning inaugural portrait of George Bush marks another high point in Mr. Kaufman's long and illustrious career.

Certified Coins of 1989

As we look back from last year into the New Year, we must admit that the most critical factor in our industry during 1988 has been the universal acceptance of independent grading services. In particular two grading services have excelled in their acceptance and popularity. These are the ''PCGS'' Professional Coin Grading Service and ''NGC'' Numismatic Guaranty Corp. of America. Shortly the American Numismatic Association Certification Service will offer similar services. Superior is pleased to offer submission services to all three services. You will find our fee schedule for these services below.

Our purpose in writing is to inform you to four new investment services which are available to those clients wishing to obtain an assortment or holding in certified coinage. We are pleased to bring you this information and invite your participation either with a one time investment or on an on-going monthly program.

As experienced professionals all recognize, certified coins (often referred to as ''SLABS'') are offered in the market with some coins appearing to be very conservatively graded while others may appear to have received a very liberal grade. This is primarily due to the fact that grading standards are not precise and the ability to grade is an art and not a science. Therefore, it is safe to say that the ability to obtain coins which are conservatively graded is an important aspect of acquiring a portfolio of certified coins.

We are pleased to offer four investment packages. Remember that a purchase of certified coins offers you an independent opinion of grade. Also remember that these coins have been sonically sealed in air tight hard plastic cases to provide safe long term storage. Most importantly about our investment service is the fact that Mark Goldberg who is a principle of Superior Stamp & Coin and a well respected and qualified professional numismatist will personally select your individual portfolio of certified coins. This extra service will not cost you any more and you can be assured that your coins are those which have been assigned a the conservative grade rather than a liberal grade.

Our programs are: United States Patterns, United Stated Gold Coinage, United States Silver Dollars and our Certified Investment Portfolio (consisting of all PCGS and NGC certified coinage). Minimum investment in our program is $1000.00 per month or a one-time investment of $2500.00. You select the category you want and we do the rest. We believe that 1989 is going to be an important year in numismatics and here is your opportunity to start out right with a quality investment in Certified Coins. NEW TREND in Examining Rare Coins

If you have recently attended rare coin auction sales, you may have observed that the latest trend in examining rare coins is in a darkly lit room and a powerful single source of lighting. The purpose behind this type of viewing is rather simple. By eliminiating outside light sources and allowing a single powerful light source to provide the lighting, we find that glare is no longer a problem and the coin can be maneuvered to provide a more controlled vision.

The interesting feature here is that this manner of viewing coins is being utilized by several of the major grading laboratories and thus by utilizing the same principle one is more likely to be able to examine a coin and better predict how the coin will be graded if sent in for a certificate.

We are pleased to announce that Superior Stamp & Coin is distributing both the light source and the magnifier which are being used to grade coins by some of these grading laboratories. It has been no secret within the trade that our line of halogen lights and magnifiers have been great sellers. We are pleased to provide this listing of our more popular products. We have placed an asterisk beside the two items being used by these laboratories. All represent great quality and will serve you for many years.

AMERICA'S FIRST COIN

Most people are not aware that the first coin illustrated in the famous *Red Book* is the Pillar Dollar or Pieces of Eight. These coins were struck in Mexico with the intended purpose to circulate in the Colonies (namely the United States). Pillar Dollars have long been treasured by collectors and historically have sold for very large amounts of money. Our small hoard originated from the Dutch ship *Reijgersdal* which was lost at sea in 1745. The storm which took the ship also accounted for the loss of 24 sailors and tons of treasure.

The treasure was discovered off the coast of South Africa in 1978 and took three years to bring to the surface. The coins have been marketed since their discovery from $300-$500 each. The interesting aspect of the coin, and most significant, is that the "Pillar Dollar" is so named since it illustrates two globes being supported by the pillars surmounted by the Spanish Crown atop the globes. The globes portray Europe and the newly discovered Americas. These coins are known within the industry as "sea salvaged" and have a somewhat porous surface while exhibiting details which obviously are Mint State. Our coins range in date from the 1730's to the 1740's. For those interested in multiple pieces we offer a selection of 3 or 5 different dates. Our price is considerably less than offered elsewhere and we have just 100 coins available. This offer is limited to a select group of clients who recognize outstanding value and an opportunity. You may use the enclosed order form or call to have your order sent promptly.

Order No. 01-003	1 Pillar Dollar	$89.50
Order No. 01-004	3 Pillar Dollars	$250.00
Order No. 01-005	5 Pillar Dollars	$400.00

A GREAT NEW ISSUE!

Hundreds of dazzling full color stamps fill the screen as Gary Burghoff (M•A•S•H's Radar O'Reilly) hosts the first home video on the World's most popular hobby. "The Video Guide to Stamp Collecting" is the perfect introduction for a beginner — it covers all the basics of philately — and it's a treat for experienced collectors. Types of stamps and collections, topicals, rarities, errors, covers, grades, stamps as investments, and many more topics are explained and illustrated in this top-quality, 45 minute-plus production. And, it's as entertaining as it is informative.

Technical (Philatelic) expertise was supplied by Superior's own Michael Orenstein and Karl Hass. Most of the stamps seen in the video were supplied from Superior's vast inventory.

ALEXANDER the GREAT

Approx. 2x actual size

Silver Tetradrachm.
Macedonian Kingdom. Alexander III, the Great (336-323 B.C.).
Head of young Hercules right clad in lion's skin.
Reverse: Zeus enthroned left, holding eagle and sceptre.

Here's your opportunity to acquire a handsome 2300 year old Silver Tetradrachm minted by Alexander the Great!

THE DESIGN Alexander the Great stands above most all the great men of the past . . . supreme as soldier, ruler, organizer . . . the mystical dreamer who was also an intensely practical man of action. His prolific coins became the standard of the ancient world and continued to be minted, with minor changes, by his successors 200 years after his death.

The young ruler is depicted as the god Hercules, with a lion-mane headdress. Indeed, Alexander considered Hercules as his direct ancestor, as did all the Macedonian kings. The greatest of all the ancient gods - Zeus - is featured on the reverse, enthroned with an eagle in his outstretched hand; Alexander's name is inscribed to the right.

The Hercules / Zeus coin-type was brilliantly chosen, since it appealed equally to both Greeks and Orientals, for the Phoenicians could interpret the portrait as their own god. The Cilicians regarded the seated deity on the reverse as the great Ba'al of Tarsus, and the Babylonians would recall their own Gilgamesh the lion-slayer. This ready acceptance of the designs no doubt accounts for the universal appeal of Alexander's silver coinage, and the excellent quality of the silver content didn't hurt either!

THE HOARD This group of 278 recently unearthed tetradrachms was found in Turkey (ancient Anatolia) and are all well preserved. Many different mints are represented, which only partially gives us a perspective of the tremendous size of Alexander's conquests. Such was the wealth dug from the silver mines of Macedon, and released from the royal treasuries of Susa, Persepolis and Pasargadae that many a merchant or soldier might acquire and deposit underground a great fortune of Alexander coinage. The tetradrachm represented a large amount of buying power in ancient times. We can imagine that a hoard this size was a great personal fortune and was buried by an important individual whose life might have even touched the great general himself.

THE QUALITY AND THE PRICE Our hoard of Alexander the Great Silver Tetradrachms is of amazing quality. Here are historic coins you will be thrilled to own . . . proud to share with family and friends (and also they can be made into unique, stunning jewelry).

These genuine 2300 year old premium quality silver tetradrachms of Alexander the Great are a remarkable buy at our special hoard price of only $195.00 each (they usually sell for $300+ each when available).

Coins of the Bible

From the Holy Land comes this group of bronzes called prutot (singular "prutah"), the small change of the lands of the Bible. The choice of type is yours. The following is represented:

Hasmonaean Dynasty: 103-37 B.C. Most coins are of the inscription / double cornucopiae type and were the basic medium of exchange during the 1st century B.C. These are often referred to as "Widow Mites." The value of the prutah is related to the Greek silver drachm: 1 silver drachm = 6 silver obols = 48 AE chalkoi = 168 AE prutot = 336 AE Lepta. In relation to the then current shekels of Tyre, one silver shekel = 6.72 AE prutot. Later, this relationship changed slightly.

First Revolt: 66-70 A.D. While these coins were minted huge stones were being hurled and battering rams were used to raze the fortified walls of Jerusalem. The bronzes are dated, most all of year two (A.D. 67).

Roman Procurators: 6-66 A.D. The fourteen men appointed to this post by the emperor held office at Caesarea; six of the fourteen issued bronze coins. During this time the prutah was equal to one quadrans, 64 of which were equivalent to the Roman silver denarius.

Biblical-Era Shekels of Tyre in Choice VF Condition!

One of the most desirable Biblical reference coins is the silver Shekel of Tyre, 126 B.C.-A.D. 70:

- It was the only coin accepted as payment of the annual Jewish Temple Tax, according to the Talmud (tractate Skekalim 1:7).
- It was therefore the coin found in the mouth of a fish, since this coin was to pay the Temple Tax for Jesus and St. Peter (Matthew 17:24-27).
- Most notorius of all, it was surely the coin used to pay Judas Iscariot his 30 pieces of silver for betraying Jesus (Matthew 26:14-15; 27:9; Zechariah 11:12-13).

Superior has just acquired a small group of Shekels of Tyre in Choice Very Fine condition, significantly better than those usually available on the market. Nearly all are dated in the 1st Century before the Christian Era.

FORERUNNERS OF THE SHEKEL OF TYRE

From a recent hoard we offer a selection of coins from the Biblical city of Tyre minted during the time of Simon Maccabee and his son John Hyrcanus I. These coins are silver tetradrachms of Phoenician standard — the same weight and fineness as the famous Shekel of Tyre which replaced them — issued by Antiochos VII Euergetes and Demetrios II Nikator. Both kings are mentioned in the Bible:

> Antiochos son of King Demetrios sent a letter from overseas to Simon the high priest and enthnarch of the Jews, and to the whole nation. (I Maccabees 15:1)
>
> And Demetrios sent Jonathan a letter in peaceable words, to honor him. (I Maccabees 10:3)

Historical Background

The city of Tyre was able to assert a degree of autonomy during this turbulent period of Seleukid history. Demetrios II seized power in 146 B.C. while still a teenager with the aid of an army of mercenaries. A bloodbath followed as his troops raged out of control, looting and ravaging, and within a few months civil war broke out between Demetrios and a rival candidate, Antiochos VI. Demetrios II confirmed Jonathan as high priest, after receiving a tribute of 300 talents, and Jonathan returned the favor by sending an army of 3,000 Jews to help Demetrios suppress a mutiny. In 140 B.C. Demetrios invaded Parthia, but was soon defeated and taken prisoner.

Upon capture of Demetrios, his younger brother Antiochos VII became king. One of his first acts was to write to the high priest Simon confirming his privileges and including the right "also to coin money for thy country with thine own stamp" (though Simon apparently issued no coins). But then Antiochos turned on the Jews, revoked all privileges, and beseiged Jerusalem. After making peace in Judaea, he attacked Parthia but was surprised by the main Parthian army under Phraates II and was killed.

Coincidentally, Phraates released Demetrios II from captivity just prior to the death of Antiochos, so he was able to reign a second time unopposed. But, after another uprising, he was defeated and murdered in the city of Tyre by orders of his first wife, Cleopatra, who granted Tyre its freedom as a reward.

The Hoard

These coins show the diademed and draped bust of the king right, with an eagle standing on the beak of a galley on the reverse. All have the monogram of Tyre above the club, and a date in the Seleukid era. They date from 176 to 184 S.E. (137/6 B.C. to 129/8 B.C.) and are listed in Sear's Greek Coins and Their Values, 2 as numbers 7094 and 7105; also see Banks, Coins of Bible Days, p. 59.

CLASSIC
UNITED STATES FIRST DAY COVERS

Classic FDC's (1922-1944) are among the hottest collecting areas today. Collectors are becoming aware of just how limited and scarce these early covers really are. Created mainly by a few men with vision (Nickles, Warden, etc.), most of these covers are rare enough to grace the finest collection and exhibit.
The covers offered in this advertisement were put away back in the 1940's after having been purchased from the estate of C.E. Nickles (yes-the same pioneer FDC maker). They have lain undisturbed for over 40 years until, once again, dispersal of an estate causes them to service one again. All of these covers are in unusually fresh & clean condition, very unlike the covers generally seen today. Some covers have been slit open at left (so indicated by a ★), but this was done by old C.E. Nickles himself (you may have my word on it) so its not too much of a liability. Most of these covers do not have a cachet. Those of you familiar with classic FDC collecting know that cachets didn't generally show up until the 1930's. Thus, lack of a cachet for these covers is to be expected.
Quantities of most covers are quite limited so we suggest you order promptly. Special bonus discounts: over $250.00 deduct 5%; over $100.00 deduct 15%. Satisfaction guaranteed.
